

CVC CardioVascular Clinics

CVC CardioVascular Clinics has been established to provide comprehensive quaternary cardiac care by a highly experienced and diverse team of Cardiologists. The like-minded team at CVC have independently formed a practice to provide support for each other and to combine their knowledge in order to provide patients with quality care and optimal cardiac treatment.

All CVC Cardiologists provide comprehensive consultations and each CVC cardiologist specialises in a cardiac subspecialty; advanced interventional cardiology including structural heart disease, electrophysiology, advanced imaging, echocardiography, and heart failure.

The **General Practitioner** plays a vital role in a patients' health and wellbeing journey and this is very important to CVC.

We have 24/7 access via a dedicated phone number for referring doctors to contact a CVC on-call Cardiologist. **You will always speak to a CVC Cardiologist on our dedicated Doctor-Only Hotline, 07 3193 8099.**

We endeavour to ensure a 24-hour turnaround with correspondence and test reports.

Dr Russell Denman
Clinical Cardiologist and
Electrophysiologist

Matthew Pincus
Clinical and Interventional
Cardiologist

Dr Brendan Bell
Clinical and Interventional
Cardiologist

Dr Mahala Hudaverdi
Clinical Cardiologist and
Advanced Imaging &
Echocardiography Specialist

Dr Yohan Chacko
Clinical and Interventional
Cardiologist

Dr Yee Weng Wong
Clinical and Heart Failure
Cardiologist

Dr Alexander Incani
Interventional Cardiologist, TAVI
Specialist, Managing Director

Dr Chris Raffel
Clinical and Interventional
Cardiologist

Dr Reny Suryani
Clinical Cardiologist and
Advanced Imaging &
Echocardiography Specialist

Dr Harendra Wijesekera
Clinical Cardiologist and
Advanced Imaging &
Echocardiography Specialist

Dr Himabindu Samardhi
Clinical Cardiologist and
Electrophysiologist

Dr Karl Poon
Clinical Cardiologist and
TAVI Specialist

Dr Shruti Rateesh
Clinical Cardiologist and
Advanced Imaging &
Echocardiography Specialist

SPECIALIST CARDIAC PROCEDURES INCLUDE:

- Angiography and Right Heart Studies
